

CLEANING SOLUTION FOR ULTRASONIC CLEANERS

PRODUCT DESCRIPTION

Envirowise Solutions advanced Sonic Cleaner is manufactured with the latest chemistry technology for use in ultrasonic cleaning machines. A concentrated, non-ammoniated unique blend of naturally derived surfactants that thoroughly clean contents.

BENEFITS

- **Highly Effective:** This solution is formulated to take advantage of ultrasonic machines implosion of billions of minute vacuum bubbles when they contact smoke covered contents immersed in our Sonic Clean solution
- **Thorough:** When the bubbles implode contaminants are quickly and safely blasted away from wetted surfaces without damaging delicate parts. These bubbles are so small that they are able to penetrate minute cracks, crevices and blind holes impossible to reach by hand scrubbing using conventional contents washers or aerosol sprays.
- **Fast:** Once contents are placed in the Sonic Clean solution, and cleaning initiated, parts can be very quickly cleaned in an environmentally friendly manner

- **Safe on all metals & plastics:** This non-toxic cleaning solution is safe on all metals including aluminum, aluminum alloys, brass, cast iron, copper, copper alloys, ferrous metals, magnesium, yellow alloys, zinc, and coins. Does not contain borates, phenols, nitrates, SARA 313, EPA 33/50 listed ingredients, or butyl cellulose.

A SAFE, PROFESSIONAL GRADE CLEAN

There are many appealing features that make Sonic Clean solution a smart choice:

- CleanGredients listed and approved for direct release
- VOC free - contains no hazardous or harmful chemicals such as phosphates or solvents
- Non-flammable
- Anti-corrosive
- Non-caustic
- Completely biodegradable
- Non-toxic

USAGE DIRECTIONS

Sonic Clean solution may be diluted.
For heavy cleaning, use 5 ounces per gallon
For light cleaning use 2.5 ounces per gallon

PRODUCT SPECIFICATIONS

Available sizes: 4 x 4L case, 20L pail, 208L drum, 1000L tote

Color: Clear

Fragrance: Fragrance free

STORAGE & SHELF LIFE

Store away from direct sunlight in a cool, dry area.
Keep from freezing.
2 year shelf life.

APPLICATIONS

Sonic Clean solution is a safe, professional grade product designed to use without endangering the environment. It is ideal for use in insurance restoration efforts and perfect for cleaning a wide range of settings, including hospitals, schools, hotels, and industrial settings.

Recommended for use in:

- Contents cleaning for insurance restoration
- Residential
- Industrial Plants

- Commercial
- Food Processing Plants
- Restaurants
- Hotels

- Hospitals
- Schools
- Cafeterias
