

# ENZYME BASED ODOR COUNTERACTANT & CLEANER

## ADVANCED ENZYMATIC ODOR ELIMINATION

---

Ultrazyme is a unique, non-toxic, cationic surfactant in liquid form that is a highly effective air and fabric deodorizer, odor control booster and cleaner. Ultrazyme has been proven to neutralize a wide range of malodor across both in-house and industrial applications.

Ultrazyme is an enzyme based odor counteractant product that can be added to degreasers for fragrance enhancement. Ultrazyme contains no solvents or phosphates and is biodegradable. Not only is Ultrazyme an excellent choice for use in both household and industrial applications, it is also an excellent addition to laundry as a booster of fresh scent.

## HOW IT WORKS – ENZYMATIC ODOR ELIMINATION

---

Ultrazyme works by binding with the odor causing molecules and neutralizing them at the source. Its activity at low concentrations along with full solubility in water makes Ultrazyme ideal for use in most air and fabric deodorizer applications.

## SUMMARY

---

Ultrazyme provides long-lasting effectiveness against odors, creating a pleasant fresh atmosphere and is widely used for consumer odor neutralization in households, hotels, vehicles, pet bedding and fabric refreshing. Ultrazyme is highly effective for odor control in industrial applications such as landfills, food processing, livestock areas and effluent treatment.

## A SAFE PRODUCT

---

There are many appealing features that make Ultrazyme a smart choice:

- Non-toxic
- Non-flammable
- Non-pathogenic
- Near neutral pH
- Biodegradable

## USAGE DIRECTIONS

---

### For heavy cleaning/deodorizing:

Dilute 500ml of Ultrazyme into 4L of warm water. Apply on surface until thoroughly wet. Rinse with fresh water and wipe with a clean cloth.

### For regular cleaning/deodorizing:

Dilute 300 ml of Ultrazyme per 4L of warm water. Apply on surface until thoroughly wet. Rinse with fresh water and wipe with a clean cloth, sponge, mop or allow to air dry.

Ultrazyme may be applied full strength or diluted evenly with a mop or with a sprayer. Let Ultrazyme work the surface for a minimum of 1-3 minutes.

## PRODUCT SPECIFICATIONS

---

Available sizes: 4 x 4L case, 20L pail, 208L drum, 1000L tote

Color: Blue

Fragrance: Spearmint

## STORAGE & SHELF LIFE

---

Store away from direct sunlight in a cool, dry area.

Keep from freezing.

2 year shelf life from date of manufacture.

## APPLICATIONS

---

Ultrazyme is a safe, professional grade product designed to use without endangering the environment. It is ideal for use in insurance restoration efforts and perfect for using in a wide range of applications for residential, commercial and industrial settings.

### Industrial Applications:

- Wastewater effluent odor control
- Food processing plant odor control
- Sanitary landfill odor control
- May be added to degreasers for fragrance enhancement

### Consumer Applications:

- Deodorizer for homes, hotels, and vehicles
- Deodorizer for garbage containers

- Deodorizer for kitchen surfaces
- Deodorization of laundry
- Odor control in kitty litter and pet care products
