

PLANT BASED DEGREASING CONCENTRATE

PRODUCT DESCRIPTION

Ecorinse is a powerful, plant-based degreasing concentrate formulated for cleaning contents in the insurance restoration industry.

Ecorinse is derived from a unique chemical synthesis, employing powerful surfactants and emulsifiers which provide faster wetting, faster penetration and overall better cleaning without compromising safety and the environment. This non-citrus based product quickly reduces surface tension and aggressively lifts grease from the surface. Ecorinse, a professional grade product is ideal for use with contents restoration efforts.

Unlike most heavy-duty cleaners, Ecorinse contains no harmful chemicals, is non-flammable and completely biodegradable for a safer clean that is friendlier to the environment.

A SAFE PROFESSIONAL GRADE CLEAN

There are many appealing features that make Ecorinse a smart choice:

- VOC free - contains no hazardous or harmful chemicals such as phosphates or solvents
- Non-flammable
- Anti-corrosive
- Non-caustic
- Completely biodegradable

A NATURAL POWERHOUSE

Ecorinse can be counted on to get the job done efficiently – it excels at cleaning and degreasing a broad range of surfaces. Restoration and cleaning professionals rely on Envirowise's Ecorinse.

There are many appealing features that make Ecorinse a smart choice:

- Delivers superior cleaning, and degreasing power
- Cuts through grease swiftly
- Cleans fire and soot damage
- Removes soap scum, dirt, grime and other organic build-up and soiling
