

BIOENZYMATIC ODOR COUNTERACTANT

ADVANCED BIO-ENZYMATIC ODOR ELIMINATION

Envirowise's Odorwise is formulated to effectively eliminate odors and remove stains without the use of harmful or toxic chemicals. Odorwise is excellent for removing mold and mildew odors.

Odorwise is a blend of 5 strains of bacteria cultures that together produce 7 strains of enzymes. This gives it the ability to breakdown any type of hydro-carbon based odors.

A SAFE PRODUCT

There are many appealing features that make Odorwise a smart choice:

- Contains no hazardous chemicals, or synthetic dyes
- Non-toxic
- Non-pathogenic
- Non-corrosive
- Non-flammable
- Non-polluting
- Biodegradable

BIO-ENZYMATIC ODOR COUNTERACTANT

Odorwise is proof that a cleaning product can be both safer and better. This multitasking, environment friendly cleaner does not flinch away from the dirtiest jobs. It just gets them done using it's advanced enzymatic formula.

- Erases persistent odors and stains from pet accidents involving urine, feces or vomit
- Clears away stubborn stains left by blood, wine, coffee, milk and more
- Functions as a cleaner and waste degrader for grease traps, waste systems and holding tanks
- 141 billion bacteria spores per litre
- Facultative microorganisms; grow with or without the presence of oxygen
- Neutral pH

USAGE DIRECTIONS

Carpeting: For removing urine odour and tough stains, spray directly on affected area and then shampoo carpet as usual.

Concrete: Spray affected area and allow to dry.
