

# HEAVY DUTY PLANT BASED DEGREASING CONCENTRATE

## PRODUCT DESCRIPTION

Grimebuster is a powerful heavy-duty, plant-based degreasing concentrate formulated to remove soot and heavy grease. It is formulated exclusively for the removal of oil from petroleum-based membrane sealers, epoxy sealers, solvent based sealers and asphalt.

Grimebuster is derived from a unique chemical synthesis, employing powerful surfactants and emulsifiers. It provides faster wetting, faster penetration and overall better cleaning without compromising safety and the environment. This non-citrus based product quickly reduces surface tension and aggressively lifts and suspends soot from fire damage. Grimebuster, a professional grade product is ideal for use in damage restoration efforts.

Grimebuster provides superior deep cleaning and grease-fighting capabilities for the toughest jobs in the grimmest industrial and high traffic commercial settings. Unlike most heavy-duty cleaners, Grimebuster contains no harmful chemicals, is non-flammable and completely biodegradable for a safer clean that is friendlier to the environment.

## A NATURAL POWERHOUSE

Grimebuster can be counted on to get the job done efficiently – it excels at cleaning and degreasing a broad range of surfaces. Restoration and cleaning professionals rely on Envirowise's Grimebuster.

There are many appealing features that make Grimebuster a smart choice:
